Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Application No. Applicant(s) 10/524,301 KLETTKE ET AL. Office Action Summary Examiner Art Unit MICHAEL PEPITONE 1796 -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --Period for Reply A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS. WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status 1) Responsive to communication(s) filed on 10 April 2008. 2a) This action is FINAL. 2b) This action is non-final. 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) Claim(s) 15-27 is/are pending in the application. 4a) Of the above claim(s) _____ is/are withdrawn from consideration. 5) Claim(s) _____ is/are allowed. 6) Claim(s) 15-27 is/are rejected. 7) Claim(s) _____ is/are objected to. 8) Claim(s) _____ are subject to restriction and/or election requirement. Application Papers 9) The specification is objected to by the Examiner. 10) ☐ The drawing(s) filed on is/are: a) ☐ accepted or b) ☐ objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a). Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152. Priority under 35 U.S.C. § 119 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-20 and 22-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Zech et al. (WO 01/17483). For the purpose of examination, Zech et al. (US 6,894,144) was used as the English translation of Zech et al. (WO 01/17483).

Regarding claim 15: Zech et al. teaches a composition (1:10-11) comprising a mixture of N-alkylaziridino compounds (5:56-62), wherein N-alkylaziridino compounds have aziridino equivalent masses being able to be varied from 500 to 25000 g/equivalent and the number of N-alkylaziridino groups being able to be varied between 1 {corresponding to instant formula Z2} and 4, wherein preferred embodiments contain at least 2, or at least 3 aziridino groups {corresponding to instant formula Z1} (6:53-64), wherein the compounds have different polymer backbones (6:65-7:4).

Regarding claim 16-18: Zech et al. teaches N-alkylaziridino polyethers {corresponding to Z1 and Z2} [instant claim 16 and 18] comprising tetrahydrofuran units [instant claim 17] (7:1-4).

Application/Control Number: 10/524,301

Art Unit: 1796

Regarding claim 19: Zech et al. teaches N-alkylaziridino polyethers having a mass of at least 500 {based on 500 to 25000 g/equivalent and the number of N-alkylaziridino groups being 1 {corresponding to instant formula Z2} (6:53-57).

Regarding claim 20: Zech et al. teaches additives (5:44-6:2; 6:16-19; 6:36-42).

Regarding claim 22: Zech et al. teaches a base component comprising N-alkylaziridino compounds {corresponding to Z1 and Z2} and a catalyst component {corresponding to instant formula K} (5:44-6:2).

Regarding claim 23: Zech et al. teaches a dental material (1:12-15; 1:55-59, 7:45-50).

The Office realizes that all the claimed effects or physical properties are not positively stated by the reference. However, the reference teaches all of the claimed reagents. Therefore, the claimed effects and physical properties, i.e. a Shore A hardness within 20 minutes of mixing base and catalyst at room temperature of at least 80% of the Shore A hardness reached after 24 h, would inherently be achieved by a composition with all the claimed ingredients. If it is the applicants' position that this would not be the case: (1) evidence would need to be presented to support applicant's position; and (2) it would be the Office's position that the application contains inadequate disclosure that there is no teaching as to how to obtain the claimed properties and effects with only the claimed ingredients.

Regarding claim 24: Zech et al. teaches dental impression materials (1:10-15).

<u>Regarding claim 25</u>: Zech *et al.* teaches the number of N-alkylaziridino groups equal to 1 (corresponding to instant formula Z2) (6:53-57).

The Office realizes that all the claimed effects or physical properties are not positively stated by the reference. However, the reference teaches all of the claimed reagents. Therefore, Application/Control Number: 10/524,301

Art Unit: 1796

the claimed effects and physical properties, i.e. an acceleration of the setting rate, would inherently be achieved by a composition with all the claimed ingredients. If it is the applicants' position that this would not be the case: (1) evidence would need to be presented to support applicant's position; and (2) it would be the Office's position that the application contains inadequate disclosure that there is no teaching as to how to obtain the claimed properties and effects with only the claimed ingredients.

Regarding claims 26-27: Zech et al. teaches pre-dosed pack units of base and catalyst {a kit}, and double chambered cartridges {base and catalyst separated} [instant claim 26] with static mixing tube [instant claim 27] (6:3-5; 6:53-57).

Claim 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Zech *et al.* (WO 01/17483). For the purpose of examination, Zech *et al.* (US 6,894,144) was used as the English translation of Zech *et al.* (WO 01/17483).

Regarding claim 21: Zech et al. teaches a method of preparing a composition (1:10-11) comprising a mixture of N-alkylaziridino compounds (5:56-62), wherein N-alkylaziridino compounds have aziridino equivalent masses being able to be varied from 500 to 25000 g/equivalent and the number of N-alkylaziridino groups being able to be varied between 1 {corresponding to instant formula Z2} and 4, wherein preferred embodiments contain at least 2, or at least 3 aziridino groups {corresponding to instant formula Z1} (6:53-64), wherein the compounds have different polymer backbones (6:65-7:4).

The prior art made of record and not relied upon is considered pertinent to applicants' disclosure. See attached form PTO-892.

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL PEPITONE whose telephone number is (571)270-3299. The examiner can normally be reached on M-F, 7:30-5:00 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Eashoo can be reached on 571-272-1197. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
